

Emax Tech Bulletin 3

Date Issued: 5/13/2004

Product Effected: E-Max Console Computer

Version(s) Effected: 1.0.0, 1.0.1, 1.1.0, 1.1.0x, 1.2.0, 1.2.1

Problem: When returning to a schedule already in progress the schedule history and numbers called are not retained.

Cause: The schedule in progress contains a pattern with more than 1024 combinations.

Solution: This problem does not affect the playing of schedules with patterns that have more than 1024 combinations only the retaining the information. This feature will be supported in the next release.
